Los paneles de la línea Gallery están compuestos por 2 chapas de PVC termoformado de 1,4 mm de espesor y un interior de tablero contrachapado hidrófugo multiplex (*), formando un panel de puerta de 19 ó 23 mm con una excelente rigidez y acabado.

(*) Como opcional se puede solicitar con interior en MDF para usar en aquellas zonas donde no existan problemas de altos niveles de humedad.

INTERIORES POSIBLES:

- Tablero contrachapado Multiplex (19 ó 23 mm)
- Tablero contrachapado Multiplex con refuerzo de aluminio (19 ó 23 mm)
- Tablero MDF (19 mm)
- Isoplus (25 mm)

MEDIDA ESTANDAR: 2100 x 900 mm

Os painéis da linha Gallery, são compostos por 2 chapas de pvc termoconformado de 1,4 mm de espesura e como interior um tabuleiro contraplacado hidrofago marítimo (*), formando um painel de porta de 19 ou 23 mm com excelente rigidez e acabamento.

(*) como opção, pode-se solicitar com o interior em mdf para utilizar em zonas onde não existam problemas de altos níveis de humidade.

INTERIORES POSSIVEIS

- Tabuleiro de contraplacado marítimo (19 ou 23 mm)
- Tabuleiro de contraplacado marítimo com reforço de alumínio (19 ou 23 mm)
- Tabuleiro de mdf (19 mm)
- Isoplus (25 mm)

MEDIDA STANDARD: 2100 x 900 mm

Les panneaux de la ligne Gallery sont composés de 2 plaques de Pvc thermoformées de 1,4mm d'épaisseur et d'une planche contreplaquée hydrofuge multiplis (*), formant un panneau de porte de 19 ou 23mm, d'une excellente rigidité et finition.

(*) En option, un intérieur type medium peut être sollicité afin d'être utilisé dans les zones où il n'existe pas de problèmes d'humidité à haut niveau.

POSSIBLES INTERIEURS:

- Planche de contreplaqué multiplis (19 ou 23mm)
- Planche de contreplaqué multiplis avec renfort en aluminium (19 ou 23mm)
- Planche Medium (19mm)
- Isoplus (25mm)

MESURE STANDARD : 2100 x 900 mm

The Gallery line panels are composed of 2 thermoformed pvc sheets of 1,4 mm in thickness and an interior of a water-repellent multiplex board (*), creating a door panel of 19 or 23 mm with an excellent rigidity and finish.

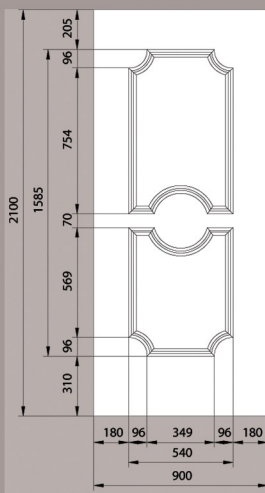

(*) as an option it can be requested with an interior of mdf to be used in those areas where there are no existing problems of high levels of humidity

POSIBLE INTERIORS

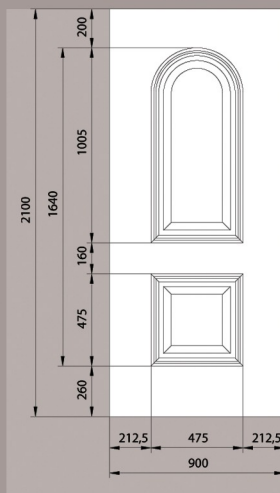

- Multiplex plywood board (19 or 23 mm)
- Multiplex plywood board with aluminium reinforcement (19 or 23 mm)
- Mdf board (19 mm)
- Isoplus (25 mm)

STANDARD DIMENSIONS: 2100 x 900 mm
